(2) Conservation status follows that of Fellowes *et al*. (2002) and BirdLife International listing (2017). Letters in parentheses indicate that the assessment is on the basis of restrictedness in breeding and/or roosting sites rather than in general occurrence. (Fellowes *et al*. 2002)
(3) Indicates number of surveys recorded within the reporting period.
(4) Refers to the mean number of individuals recorded in the reporting period (excluding the WRA).
(5) Includes observations during other surveys and/or site visits.
(6) Four regular surveys and four outside surveys were conducted.
Birds tagged with '#' are Category II protected under terrestrial wildlife state protection
Birds tagged with '##" are Category I protected under terrestrial wildlife state protection
V Indicates the species is recorded outside regular surveys
